Line ART  
BATHROOM FURNITURE

# History

Line Art was created by 2 entrepreneurs from Northern France in 2001.

Since then Line Art has continued to develop new concepts of solid wood bathroom furniture to meet the requirements of their customers.

The company makes no compromise on the quality of the oak and teak, the choice of high end fittings and countertops together with the ceramic, resin and stone basins.

Line Art embodies the passion for the highest standards of craftsmanship.

Ethical standards and attention to detail make our furniture exceptional products.

# Know how

Our creative designs are complemented by our unparalleled experience using only the finest quality materials.

Solid oak and teak, high-end hardware and natural stone are the hallmarks of our ranges.

The assembly and finishing of our furniture is carried out in our factory in Northern France to the highest standards creating a beautiful natural product.

# OUR ENVIRONMENTAL POLICY

## THE FOREST, OUR RAW MATERIAL

Wood is a natural resource of our planet and our raw material. We all depend on its renewal which is why Line Art is committed to a responsible development approach that starts with the choice of origin of the wood used and continues throughout the various production processes.

## CONTROLLED RESOURCES

The teak and oak that we use is subject to strict worldwide management controls. Line Art uses teak managed by the Indonesian government, established over 150 years ago and FSC® certified. This certification, issued by an independent international body, authorises Line Art to buy, stock and sell from these controlled sources. In addition Line Art also manufactures furniture in recycled teak from buildings that have been demolished...

## RESPONSIBLE ECONOMIC APPROACH

Line ART works continuously on recycling waste during the production processes. For example sawdust is collected to operate the kilns which are used for drying the wood.

# Our values

## SUSTAINABILITY

Our solid wood furniture is designed with durability in mind.

The choice of materials is carefully selected to allow a high standard of manufacturing which gives our furniture a guarantee of longevity.

In addition solid wood has the ability to be easily maintained and therefore to last for many years.

## ETHOS

Line Art is committed to the quality of its products and services.

As a result the guarantee of our furniture has been extended to 5 years and our aim is to satisfy your delivery expectations.

## DESIGN

Our collections, which are intended to be TIMELESS and CLASSIC, are created in close collaboration with designers.

LA CABINE or the BELT design for example is the work of the PIKS Design agency...

## CLEANING SOLID SURFACE COUNTERTOP BASINS

### ROUTINE CLEANING

- Rinse the basin with cold water after each use
- Use a sponge or soft cloth some water and neutral soap or Filacleaner.
- Avoid contact with lacquers, acetones, solvents, etc.

### ANTI-LIMESCALE MAINTENANCE

- 1/ Dilute the anti-limescale product (1 measure with 3 measures of water)
- 2/ Apply the diluted product over the entire surface using a soft cloth
- 3/ Leave for 15 minutes
- 4/ Rinse the surface of the basin thoroughly with clean water

# OAK

Oak is one of the most sought after of woods grown in our temperate European climate being both durable and resistant to damage. It is an ideal wood for high quality cabinet making having first been steamed at a high temperature to ensure stability.

**Colour variations and wood graining should not be considered as imperfections as they are part of the charm and natural character of this material.**

# OAK FINISHES

1.CHARCOAL • 2.CHOCOLATE • 3.SILVER GREY • 4.GREIGE  
5.NATURAL OIL • 6.NATURAL LIMEWASHED • 7.LIMEWASHED  
8.GREY • 9.BLACK\*

## 9 FINISHES

Line Art offer a choice of 9 oiled finishes. This treatment not only allows the furniture to be customised but also protects it from water splashing and fluctuations in temperature.

These colours are only a guide, please see oak sample finishes.

\*Optional black finish +10%

## CARE OF YOUR SOLID WOOD

Your solid wood furniture is a unique piece which requires careful and regular cleaning and maintenance with the appropriate products.

Line Art offers 2 types of wood: Teak and Oak.

We recommend the following:

- Avoid leaving liquids on any flat surfaces and wipe water splashes away after use.
- Avoid the use of corrosive or acid based cleaning products.

- Clean the furniture regularly with the appropriate products
- For regular cleaning please use a soap spray ref: 0005S
- To care and preserve the surface of the wood a refreshing oil can be used ref: 0006

We are unable to accept responsibility if inappropriate cleaning products have been used.

CARE KIT REF: 0007KE comprising soap spray and refreshing oil

1 CARE KIT IS INCLUDED WITH EACH DELIVERY OF THE OILED FURNITURE

# TEAK

Renowned for its timeless beauty teak is one of the most durable of tropical hardwoods. It is a wood that graces the finest yachts chosen not only for its appearance but also for its water resistant qualities even under the most extreme conditions. Unlike other woods teak naturally contains its own oil making it the ideal choice for the bathroom.

**Colour variations and wood graining should not be considered as imperfections as they are part of the charm and natural character of this material.**

## FINISHES AND CARE

As teak is essentially a dense hardwood and naturally contains its own oil Line Art furniture can be supplied without any further treatment in the teck brut or natural finish.

However, if further protection or an alternative look is required 5 finishes are available as an option at an additional cost of +15% as shown below.

These colours are only a guide, please see teak sample finishes Natural teak as per price list. Optional oiled finishes +15%.

- 1 • TECK BRUT Natural
- 2 • TECK HUILE NATUREL (optional) Natural Oil
- 3 • TECK HUILE DORÉ (optional) Golden Oil
- 4 • TECK CÉRUSÉ BLANC (optional) Limewashed
- 5 • TECK NATUREL CÉRUSÉ BLANC (optional) Natural Limewashed
- 6 • HAVANE (optional) Havana

## CARE OF YOUR SOLID WOOD

Your solid wood furniture is a unique piece which requires careful and regular cleaning and maintenance with the appropriate products.

Line Art offers 2 types of wood: Teak and Oak.

We recommend the following:

- Avoid leaving liquids on any flat surfaces and wipe water splashes away after use.
- Avoid the use of corrosive or acid based cleaning products.
- Clean the furniture regularly with the appropriate products (as shown)
- For regular cleaning please use a soap spray ref: 0005S
- To care and preserve the surface of the wood a refreshing oil can be used ref: 0006

Please consult us where specific cleaning advice may be required.

## TEAK FURNITURE – NATURAL FINISH

- For regular maintenance please use mild soapy water cleaning in the direction of the grain.

We are unable to accept responsibility if inappropriate cleaning products have been used.

CARE KIT REF: 0007KE comprising soap spray and refreshing oil

1 CARE KIT IS INCLUDED WITH EACH DELIVERY OF THE OILED FURNITURE

1.04.017

## WASTE FITTINGS

1.04.110 Click Clack waste, unslotted

1.04.111 Click Clack waste, slotted

1.04.018 Freeflow waste, unslotted

# NATURAL STONE

**Line Art combines solid wood with countertops and basins in natural stone. Natural stone is often preferred for its individual appearance and practicality having been treated to prevent any water absorption.**

Variations in the colour and veining of these natural stones should not be considered as defects as this is a feature of the charm and unique character of these materials.

We recommend the following:

- Wipe any water splashes after use in order to avoid lime deposits.
- Avoid the use of any acid based products which can be corrosive and cause permanent marking of the stone.

## REGULAR MAINTENANCE :

We recommend Lithofin Easy Care which cleans, protects and maintains the appearance of the natural stone.
